Pantawid beneficiaries in Mina (Year 4) Increases

by: Mrs. Suzelle Pineda, SWA

Family Development Session conducted last March. Mr. Enrico Matapuego was the resource speaker.

Values Formation and Spiritual Transformation Council Inc. led by Pastor Gideon Aludia and Pastor Alejandro Pumaren conducted Family Development Session last April.

There are 815 registered clean and active pantawid beneficiaries in the Municipality of Mina as of April 22, 2015 with an increase from its original 519 beneficiaries in 2011, it has grown in numbers due to series of validations that leads them under Set 7 grantees.

The year 2015 marked the 4th year of Pantawid Pamilya in the Municipality of Mina, a popular poverty alleviation reduction program. The goal was not only set to alleviate poverty but also to capitalize in human resources by empowering them in all aspects towards the improvement of their lives. Various activities were held, like the monthly conduct of Family Development Session in the 22 barangays with Resource Speakers coming from various agencies. Worthy to mention is the active participation of Civil Society Organizations who tirelessly shared their time to be "Gabay, Bantay, Kaagapay" in the Pantawid implementation.

For the month of January, Mr. Enrico Matapuego, principal of Cabalabaguan Elementary School, spared his time to be with beneficiaries to discuss topics on Bullying. This is in line with the new law passed to topple all kinds of bullying. The month of love, February, was the pitch perfect to discuss kinds of love. Thanks to the Values Transformation discussion led by Pastor Gideon Aludia and Pastor Alejandro Pumaren who took charge of the FDS on February.

Due to the insistent demand

of Pantawid beneficiaries, Mr Matapuego was again requested to discuss topics on bullying this time with more comprehensive tools like film showing on actual cases. Most of the beneficiaries were teary eyed after watching the video. Activities like these, in one way or another helped the beneficiaries understand their role as parents and most of all as the stewards of creation.

April 14, 2015 marked the Over the Counter Pay Out covering January-February of 2015 with the release of 2012 Retro Payment. Over 2 million were released on that day. Mr. Gil P. Abillera, Principal MNHS took the opportunity to orient the beneficiaries about GWA policy or the General Weighted Average to be enforced this SY 2015-2016. Thus, all children beneficiaries in high school must have passing average prescribed by Department of Education to be promoted to the next level.

The National Auxilliary Chaplain of the Philippines headed the April FDS with the topic Disaster Preparedness in the Community. Already equipped with disaster preparation, Pantawid beneficiaries are reminded once again of what should be done during natural calamities which are unforeseen in nature.

Also, "home visits" is one of the regular activities conducted to monitor the beneficiaries for continuous compliance of the program. This is conducted randomly each month.

It was also graced by the presence of the ever supportive Congressman of the 3rd District of Iloilo, Hon. Arthur Defensor Jr. who gave his message. The personnel from the Engender and Visayas Health gave their appreciation to the Municipality of Mina for accepting this program, while they post challenges to the end-user by not advocating women to get pregnant at an early age. Mayor Grabato inducts officers of Bulig Sa Kabuhi People's Organization

The Bulig sa Kabuhi People's Organization was conceived by "Minanhons" as a response to a program entitled "Bulig sa Kabuhi Outreach Program" of the Mina Local Government Unit which started in 1993 when different forms of programs and services were extended by the LGU to all 22 barangays. At present, the Outreach Program is still on track as experienced during the occurrence of natural calamities such as Typhoons Frank in 1997, Quinta in 2012, Yolanda in 2013, and even Ruby in 2014.

However, to minimize dole-out services, an innovative program was developed by the Municipal Social Welfare and Development Office in partnership with the Department of Agriculture utilizing community organizing as a strategy. The social preparation in organizing The Bulig

Sa Kabuhi People's Organization started in early 2014. Initiating the concept of "Self-Help," community leaders comprising various sectoral groups previously organized by the MSWDO and Dept. of Agriculture such as Farmers Organization, KALIPI (Womens' Org.), Senior Citizens, PYAP (Youth Sector), Person with Disabilities, and The Pantawid Program (4 P's) were formed into a core group and eventually each of the 22 barangays formed a community organization. At present, there is already the "Mina Federation of Bulig sa Kabuhi People's Organizations" recognized by the Mina Sangguniang Bayan. Community organization is a means to empower the people so that they can be self-reliant and thrive in a self-managed community thru integrated and coordinated efforts.

About Tech4ED

The Tech4Ed is a project which originated from the Philippine Community eCenter Program to primary bridge the digital divide with the vision of establishing a Community eCenter (CeC) in the municipalities. Now with new and emerging technologies, the Tech4ED Project is stepping up to offer more opportunities for inclusive growth and economic development particularly in rural communities and selected urban areas where there is no shared public internet access.

Thus, Tech4ED Centers will serve as a hub for the community to have access to information, communication, technology, government services, non-formal or alternative education, skills training, telehealth, job markets, and business portals giving individuals and communities in rural and urban poor areas opportunity for inclusive growth and economic development. With the single ICT platform deployed, the Tech4ED Centers will become access point for the undeserved and marginalized which gives them the chance to upgrade their literacy level, acquire skills to gain employment or start a source of livelihood, look for jobs, improve their business and income, avail of government services, increase their knowledge, and communicate with their families (OFWs) or with individuals in the same field (farmer to farmer, entrepreneurs to entrepreneurs, etc.).

This is the present condition of our parish church, **OUR LADY OF THE PILLAR**. The main altar which is part of the original structure needs thorough retrofitting. It was originally constructed using the old system, with no steel bars used in its foundation. Though it withstood the test of time in the past, its present condition now poses great danger, with the threat brought about by climate change, it might collapse at any given time.

We need the support of all God-loving Minanhons. Please help in the renovation of our church. We will engrave the name of the donors. You may dedicate your donation to your dear departed loved ones. This will be your lasting legacy to be part of this noble undertaking.

Your donation will be a big support for this project to reach completion.
