# Assessment Office revises its Tax Maps

The Assessment Office headed by Ms. Dory P. Emelo focused the last quarter of 2016 accomplishment on the Revision of Tax Maps. The last revision of the maps was done in 2004 and since then many transactions such as subdivisions and consolidations of lands had transpired and indicated in the tax maps which resulted to many parcels in one section and cannot anymore be located properly.

Hence, there is a need for re-sectioning of tax maps and assigning of new Property Index

Number to the lots affected. The updating of the maps is prelude to the upcoming General Revision Activity of this office which will commence in 2017.

This activity will assure prompt services to the public especially to the property owners who are the primary taxpayers in the municipality.

Mr. Dennis Hisuan was hired to do the job including the finalization of the maps in coordination with the Tax Mapping Division

Fr. Henrietto Losaria during the Blessing of Mina Public Market.

# Mina Public Market is now on its 16<sup>th</sup> year

2016 marked the 16th year of the Mina Public Market's existence and its anniversary was celebrated on September 22, 2016. A thanksgiving mass was celebrated by Mina's Parish Priest, Rev. Fr. Henrietto Losaria and followed by the Blessing of the entire marketplace. Moreover, every store in the market held a sale, low prices discount and promos as their way of sharing and thanking the Lord for His blessing bestowed upon them.

The market stood strong for nearly two decades, it had faced financial dilemmas, price hikes, natural calamities, internal conflicts and several other challenges that made it stronger and better. Its resilience and success could mainly be attributed to the strong leadership of Mina's Municipal Mayor, Rey P. Grabato, Mina public workforce, Market Vendors and most importantly to the Minanhons who kept the market busy and alive. Little by little, it gained its momentum towards progress.

Last year, repair of the left and right side roofing of the marketplace was done. Appropriate solutions were drafted and budget was allocated for the rehabilitation of the long standing problem of clogged drainages. Cleanliness and orderliness inside and outside the market were strictly implemented. Conflict among vendors and buyers were timely and properly addressed.

But the most compelling success of a marketplace is its revenues. Success means progress translated to financial gains. The total market revenue as of 2016 amounted to P 2, 135 765.13. Compared to its 2015 collection which only amounted to P1, 569, 132.12, there was an astounding increase of 73%. This simply means that the market is growing and developing as a financial resource for both small scale businesses and the municipality itself apart from being a reliable source of the public's basic needs and commodities.

## ALS-Coping with Advance Technology

PAUL JUSTIN V. PADERNAL  
ALS Student  
Mina, Iloilo

Technology facilitates the students, ability to make personal connections with others and provides opportunities to focus on writing skills within a context that they value, without fear of being stigmatized. A computer is an electronic device that can receive a set of instructions, or program by performing calculations on numerical date or by compiling and correlating other forms of information.

The bottom line is, computers provide worthwhile careers. Children with disabilities vary with respect to the type and number of disabilities they have, and disabilities vary in cause, degree.

Computers are the future whether we like it or not, some people dislikes computers, because of the complications it takes to understand the basics. AAC systems can be extremely powerful tools enabling some students with severe communication disorders to participate in instructional activities alongside their nondisabled peers.

Teachers have found that technological innovations can help level the playing field for special needs students and enable these students to succeed in the regular classroom.

The final section provides a discussion of the barriers to more widespread use of the promising technologies—barriers that must be overcome if schools are to provide greater opportunities for students with disabilities to learn more effectively in regular classroom settings. Students with mild learning disabilities often demonstrate higher-level performance and attention to detail working on multimedia projects than they normally exhibit.

Millions of students across the United States cannot benefit fully from a traditional educational program because they have a disability that impairs their ability to participate in a typical classroom environment. Not only can computer technology facilitates a broader range of educational activities to meet a variety needs for students with mild learning disorders, but adaptive technology now exists than can enable even those students with severe disabilities to become active learners in the classroom along with their peers who do not have disabilities.

Over the past 20 years, the number of students with disabilities has been steadily increasing at a faster rate than both the general population and school enrollment. Today, approximately one of six students in schools across the United States cannot benefit fully from a traditional educational program because they have a disability that impairs their ability to participate in classroom activities. Federal law defines students with special needs as those who, because of a disability, require special education and related services to achieve their fullest potential. According to the most recent government statistics, more than 5 million students ages 6 to 17 were receiving special education services during the 1997–98 school year.

The research examining the potential benefits of computer-based instruction is grounded in basic learning theory and is the same for all students, including both those with and without mild disabilities.

Now I am in the regular school in eighth grade. My computer has been the best thing that has ever happened to me in my life. Now people do not have to read my words.

## NEW TECHNOLOGY: A Key to Success

“New technology is common, new thinking is rare.”

Surrounding us with modern technology makes people live their life in a better way. Technology plays different roles in our society such as modern education, health care, transportation, communication, and many more. Technology, especially in form of computers and gadgets is very important in the education of students. It helps the students to enhance their ability to research and discover new things and to their learning skills and processes. And makes a better way to communicate with other people and to handle tasks much easier.

People's life gets easier through the help of modern technology. From the first invention to the internets, technology has been a great factor which makes our civilization grow faster than

before. Technology helps us to access information around the world with just one click. It helps us to find jobs easier and in a convenient way. Technology helps people to make lesser mistakes through machines that you only need to give proper information. With the help of computers we can do something in a short period of time and it also helps to enhance quality and provide suggestions. Modern technology also changed the health industry like hospital

treatments in every patient. Technology also improved the entertainment for adults and kids like video games and more visual systems like TVs. Technology also brought disadvantages in our lives. One of the major disadvantages of technology that we are facing nowadays is cyber bullying. Giving students access to anonymous accounts can lead to endless troubles.

Technology has brought both positive and negative thoughts in our society. But despite all that negative effects, technology had made our lives more easier than before. Technology has greatly helped us to become more efficient thus increasing our productivity. It has also helped us a great deal to be able to save on many resources such as time and money and these are great benefits that cannot be ignored.

## In celebration of the World Youth Day

Adolescents (ages 10 to 19) make up large percent of the population of our society. The behavioural patterns established during these developmental periods help determine our young people's current health status and their risk for developing chronic diseases in adulthood. Although adolescence and young adulthood are generally healthy times of life, several important public health and social problems either peak or start during these years. Examples include: suicide, motor vehicle crashes, including those caused by drinking and driving, substance use and abuse, smoking, sexually transmitted infections, including human immunodeficiency virus (HIV), teen and unplanned pregnancies. Because they are in developmental transition, adolescents and young adults are particularly sensitive to environmental—that is, contextual or surrounding— influences. Environmental

factors, including family, peer group, school, neighbourhoods, policies, and societal cues, can either support or challenge young people's health or well-being. Addressing the positive development of young people facilitates their adoption of healthy behaviours and helps to ensure a healthy and productive future adult population. Adolescence is a critical transitional period that includes the biological changes of puberty and the need to negotiate key developmental tasks, such as increasing independence. The financial

burdens of preventable health problems in adolescence are large and include the long-term costs of chronic diseases that are a result of behaviours begun during adolescence. Important issues influence how adolescent health will be approached in the coming decade. The emerging issue is the increased focus on the use of positive youth development interventions for preventing adolescent health risk behaviours. Youth development interventions can be briefly defined as the intentional process of providing all youth with the support, relationships, experiences, resources, and opportunities needed to become successful and competent adults. There is growing empirical evidence that well-designed youths development interventions can lead to positive outcomes. Ongoing, rigorous evaluation will determine what works, why it works, and how successful interventions can be applied.

## Psychosocial Symposium and Masquerade Youth Night

The Municipality of Mina conducted a Psychosocial Symposium and Masquerade Youth Night last December 14 2016, at Mina Sports and Cultural Center.

A two-part activity gave the LGU an opportunity to empower the young people in the community. The Psychosocial Symposium equipped the youth with enough awareness on environment, avoiding illegal drugs, health, and social welfare development.

“This is the second time that the LGU of Mina has conducted an activity involving youth”, Madam Lydia E. Grabato said.

In the evening, the participants showcased their creativity through costumes and masks. Some wore their cosplay portraying anime. Other participants were hiding behind the creative masks that

they created. Some did a great job in cross-dressing like celebrities. All the young participants wrote in the commitment wall on how they can become better community members.

“I am surprised on how creative the youth has become nowadays. As a young person like them, I am dedicating myself in serving the community better. Also, I vow to use my voice to empower young people, not to destroy them”, SB Member Rose Karen S. Defensor, the Chairman Committee on Youth and Sports said.

Included in the evening program was the presentation of various young Minanhons who are making their names

## Emerging best practice of Mina MPS

Mina Municipal Police Station (MPS) launches its emerging best practice which is Film Showing for Drug Surrenderers on September 22, 2016 held at Annex 5, Department of Agriculture Building, Brgy. Mina West, Mina, Iloilo. The activity formally starts at 3:45 in the afternoon. Hon. Rey P. Grabato gave his welcome message while SPO4 Felice S Dioso, Deputy COP/Chief, MPSMU discussed briefly the rationale of the activity.

One of the drug surrenderers, Mr. Ronald Magos, a former Barangay Kagawad of Brgy. Mina West shared his testimony of his experiences as illegal drug

dependent and how it affected his life, his family and his work. He encouraged his fellow drug surrenderers to cooperate in the government’s effort to eliminate illegal drugs and make true of their commitment stated in their affidavit of undertaking. He also expressed his gratitude to Mayor Grabato and Mina MPS OIC Chief, PI ROY D CASTRO for their persistent effort in helping them renew their lives. He humbly said that he is now helping his family doing repairs of their house.

PI Castro gives his message in behalf of PD, IPPO. It was followed by a film showing entitled “Taghoy sa Dilim”.

Another drug surrenderer, Mrs. Mary Rose Tiangco shared also the lessons learned from her involvement in illegal drugs. She tearfully told how this made her father and mother go to jail and how the incident affected their whole family. She encouraged her fellow surrenderers to truly reform because illegal drugs brought nothing but misery.

The activity was attended by 105 participants composed of Municipal Officials, MLGOO, School Principals, MAC Officers and members, President of Student Government, Brgy. Officials, Drug Surrenderers and PNP personnel of Mina MPS.

Mayor Rey P. Grabato, Vice Mayor Bernardino Chichirita with members of the Sangguniang Bayan were all present to give their support

to the Department Heads and the Technical Working Group headed by Engr. Luisa A. Alfin (OIC -MPDC) who acted as panelists. Present also during the review was Former Mayor Lydia E. Grabato, now serving as Executive Asst.V to the Office of the Municipal Mayor wherein she gave the overview and background of how the revision of Mina's CLUP was realized.

Mina's CLUP (2010-2020) underwent its revision before the end of its effectivity to incorporate Disaster Risk Reduction (DRR) and Climate Change Adaptation (CCA) in compliance to HLURB Res. 915, Series of 2014 entitled "Supplemental Guidelines for Mainstreaming Climate Change Adaptation and Disaster Risk Reduction in the Comprehensive Land Use Plan."

It was timely that in Year 2015, Mina became one of the four LGUs chosen as recipient of the ASEAN's Adopt-A-Municipality for Resilient Recovery Project along with the Ormoc City and Palo, Leyte and Badianan in Iloilo specifically for the Revision of the Comprehensive Land Use Plan mainstreaming DRR and CCA. The project was funded by ASEAN.

**AN ORDINANCE AMENDING ZONING ORDINANCE NO.2010-165, DATED NOVEMBER 24, 2010 OF THE MUNICIPALITY OF MINA, PROVINCE OF ILOILO AND PROVIDING FOR THE ADMINISTRATION, ENFORCEMENT AND AMENDMENT THEREOF AND FOR THE REPEAL OF ALL ORDINANCES IN CONFLICT THEREWITH**

Be it Enacted by the Sangguniang Bayan of Mina, Iloilo,

WHEREAS, the implementation of Comprehensive Land Use Plans (CLUP) would require the enactment of regulatory measures to translate the planning goals and objectives into reality; and an updated and responsive Zoning Ordinance is one such regulatory measures which is an important tool for the implementation of the Comprehensive Land use plan;

WHEREAS, Article 41 (a)(b) of the Implementing Rules and Regulations of the Local Government Code of 1991 provides that subject to applicable laws, rules, and regulations, the municipality shall continue to prepare its CLUP enacted through Zoning Ordinance. The requirements for food production, human settlements, ecological balance and industrial expansion shall be considered in the preparation of such plans and the CLUP be the primary and dominant basis for future use of local resources and for reclassification of agricultural lands;

WHEREAS, the Local Government Unit (LGU) is further mandated to mainstream Disaster Risk Reduction and Climate Change in development processes such as policy formulation, socio-economic development planning, budgeting, and governance, particularly in the areas of environment, agriculture, water, energy, health, education, poverty reduction, land use and urban planning, and public infrastructure and housing;

WHEREAS, the Revised Zoning Ordinance of the Municipality of Mina is one such regulatory measures which is an important tool for the continued implementation of the approved Comprehensive Land Use Plan;

NOW THEREFORE, the Sangguniang Bayan of Mina, Iloilo in a session assembled hereby adopts the following Revised Zoning Ordinance:

**ARTICLE I**  
**TITLE OF THE ORDINANCE**

**SECTION 01. Title of the Ordinance**

This Zoning Ordinance (ZO) shall be known as the Revised Zoning Ordinance of the Municipality of Mina and providing for the administration, enforcement and amendment thereof and the repeal of all ordinances in conflict therewith.

**ARTICLE II**  
**AUTHORITY AND PURPOSE**

**SECTION 02. Authority**

This Ordinance is enacted pursuant to the provisions of the Local Government Code of 1991, R.A. 7160 Sections 447, 448 and 458 a.2 (7-9) dated 10 October 1991, "Authorizing the Municipality, through the Sangguniang Bayan, to adopt a Zoning Ordinance subject to the provisions of existing laws" and in accordance with related laws such as but not limited to Commonwealth Act 141, RA 8550 Fisheries Code, PD 705 Forestry Code, PD 1067Water Code, PD 1096National Building Code, and Executive Order No. 72.

**SECTION 03. Purposes**

The ZO is enacted for the following purposes:

- Promote and protect the health, safety, peace, comfort, convenience and general welfare of the inhabitants in the municipality;
- Guide, control and regulate the growth and development of public and private lands in Municipality of Mina in accordance with its Comprehensive Land Use Plan (CLUP);
- Provide the proper regulatory environment to maximize opportunities for creativity, innovation and make ample room for development within the framework of good governance and community participation; and
- Enhance the character and stability of residential, commercial, industrial, institutional, forestry, agricultural, open space and other functional areas within the municipality and promote the orderly and beneficial development of the same.

**SECTION 04. General Zoning Principles**

These Zoning Regulations are based on the principles provided for in the approved Comprehensive Land Use Plan as per SB Resolution No. 2016-041 dated April 14, 2016 as follows:

- The Ordinance reflects the Municipality's vision to be "A progressive and resilient Agro-Industrial Community and globally-competitive Center for Skills Training; endowed with a sustainable environment and reliable infrastructure, inhabited by empowered Minanhons, and inspired by accountable and committed leadership."
- The Local Government Unit recognizes that any land use is a use by right but provides however that the exercise of such right shall be subject to the review standards of this Ordinance;
- The Ordinance gives the free market the maximum opportunity to spur the municipality's development within a framework of environmental integrity and social responsibility;
- The Ordinance has been designed to encourage the evolution of high-quality developments rather than regulating against the worst type of projects;
- The Ordinance has been crafted in a manner that is fully responsive to the ever-changing conditions that the municipality continually face;
- Ordinance functions as a tool for informed decision-making on the part of land use administrators by way of providing specific criteria to judge the acceptability of developments;
- The Ordinance provides a direct venue for community empowerment where the stakeholders become involved especially in critical development decisions; and
- The regulations in the Zoning Ordinance are considered as land use management tools that are necessary to provide a clear guidance to land development in order to ensure the community's common good.

The definition of the terms used in this Zoning Ordinance shall carry the same meaning given to them in already approved codes and regulations, such as but not limited to the National Building Code, Water Code, Philippine Environmental Code and other Implementing Rules and Regulations promulgated by the Housing and Land Use Regulatory Board. The words, terms and phrases enumerated hereunder shall be understood to have the corresponding meaning indicated as follows:

#### SECTION 10. Interpretation of Zone Boundaries

The following rules shall apply in the interpretation of the boundaries indicated on the Official Zoning Map:

- Where zone boundaries are so indicated that they approximately follow the center of streets or highway, the streets or highways right-of-way lines shall be construed to be the boundaries.
- Where zone boundaries are so indicated that they approximately follow the lot lines, such lot lines shall be construed to be the boundaries.
- Where zone boundaries are so indicated that they are approximately parallel to the center lines or right-of-way lines of streets and highways, such zone boundaries shall be construed as being parallel thereto and at such distance there from as indicated in the zoning map. If no distance is given, such dimension shall be determined by the use of the scale shown in said zoning map.

- Where the boundary of a zone follows approximately a railroad line, such boundary shall be deemed to be the railroad right-of-way.
- Where the boundary of a zone follows a stream, lake or other bodies of water, said boundary line should be deemed to be at the limit of the political jurisdiction of the community unless otherwise indicated. Boundaries indicated as following shorelines shall be construed to follow such shorelines and in the event of change in the shorelines, shall be construed as moving with the actual shorelines.
- Where a lot of one ownership, as of record the effective date of this Ordinance, is divided by a zone boundary line, the lot shall be construed to be within the zone where the major portion of the lot is located. In case the lot is bisected by the boundary line, it shall fall in the zone where the principal structure falls.
- Where zone boundaries are indicated by Lot Parcels or said to be one-lot deep, this should mean that the said zone boundaries are defined by the parcellary subdivision existing at the time of the passage of this Ordinance.
- The textual description of the zone boundaries shall prevail over that of the Official Zoning Maps.

**SECTION 17. Easement**

1. Pursuant to the provisions of the Water Code: 1) the banks of rivers and streams and the shores of the seas and lakes throughout their entire length within a zone of three (3) meters in urban areas, twenty (20) meters in agricultural areas and forty (40) meters in forest areas, along their margins, are subject to easements of public use in the interest of recreation, navigation, floatage, fishing and salvage.
2. No person shall be allowed to stay in this zone longer than what is necessary for space or recreation, navigation, floatage, fishing or salvage or to build structures of any kind.

**SECTION 18. Buffer Regulations**

A buffer of 4 meters shall be provided along entire boundary length between two or more conflicting zones allocating 2 meters from each side of the district boundary. Such buffer strip should be open and not encroached upon by any building or structure and should be a part of the yard or open space.

**SECTION 19. Specific Provisions In The National Building Code**

Specific provisions stipulated in the National Building Code (P.D. 1096) as amended thereto relevant to traffic generators, advertising and business signs, erection of more than one principal structure, dwelling or rear lots, access yards requirements and dwelling groups, which are not in conflict with the provisions of the Zoning Ordinance, shall be observed.

**SECTION 20. Advertising, Billboards and Business Signs**

No advertising, billboards or business signs whether on or off premises of an establishment shall be displayed or put up for public view without locational clearance from the Zoning Administrator/Zoning Officer. Locational clearance for such signs or billboards may be granted only when the same is appropriate for the permitted use for a zone and the size thereof is not excessive, taking into account the bulk or size of the building or structure and the business practices or usages of the locality and the same shall in no case obstruct the view of any scenic spot. Obnoxious signs that would constitute nuisance to adjoining property owners, distract motorists or constitute as hazards to public safety shall not be allowed in any area. No sign should project to public property unless expressly allowed by the Zoning Administrator/ Zoning Officer. Temporary signs and billboards for not more than two months may be allowed by the Zoning Officer/Administrator upon payment of corresponding fees to the City/Municipality. The permit for such sign shall indicate the location, size, slope, contents and type of construction. It shall be unlawful to maintain an obsolete sign by reason of discontinuance of business, service or activity for more than 60 days therefrom.

**ARTICLE VII  
PERFORMANCE STANDARDS**

**SECTION 21. Application of Performance Standards**

The following performance standards are intended to ensure land use and neighborhood compatibility. Proposed developments shall comply with the applicable performance standards which shall form part of the requirements for Locational Clearance. These standards are by no means exhaustive or all inclusive. The Local Zoning Board of Appeals (LZBA) may require other standards, when deemed necessary, to ensure land use and neighborhood compatibility. These shall be enforced through the Implementing Guidelines that is made part of this ZO.

**SECTION 22. Environmental Conservation and Protection Standards**

It is the intent of the ZO to protect the natural resources of the Municipality. In order to achieve this objective, all developments shall comply with the following regulations:

1. Views shall be preserved for public enjoyment especially in sites with high scenic quality by closely considering building orientation, height, bulk, fencing and landscaping.
2. Deep wells shall not be allowed unless a Water Permit is obtained from the National Water Resources Board.
3. Land use activities shall not cause the alteration of natural drainage patterns or change the velocities, volumes, and physical, chemical, and biological characteristics of storm water. Streams, watercourses, wetlands, lakes or ponds shall not be altered, re-graded, developed, piped, diverted or built upon.
4. All developments shall ensure that storm water runoff shall be controlled through appropriate storm water drainage system design.
5. All developments shall undertake the protection of rivers, streams, lakes and ponds from sedimentation and erosion damage;
6. The internal drainage systems of developments shall be so designed as not to increase turbidity, sediment yield, or cause the discharge of any harmful substances that will degrade the quality of water. Water quality shall be maintained according to DENR's latest Revised Water Usage and Classification/Ambient Water Quality Criteria;
7. Municipal and industrial wastewater effluents shall not discharge into surface and groundwater unless it is scientifically proven that such discharges will not cause the deterioration of the water quality. Effluents shall be maintained according to DENR's latest Effluent Quality Standards for Class "C" Inland Waters
8. Developments that generate toxic and hazardous waste shall provide appropriate handling and treatment facilities which should be in accordance with the requirements of and approved by the DENR;
9. Floodplains shall not be altered, filled and/or built upon without proper drainage design and without proper consideration of possible inundation effects on nearby properties
10. All developments, particularly those in sloping areas, shall undertake adequate and appropriate slope and erosion protection as well as soil conservation measures;
11. Facilities and operations that cause the emission of dust, dirt, fly ash, smoke, gas or any other air polluting material that may have harmful effects on health or cause the impairment of visibility are not permitted. Air quality at the point of emission shall be maintained at specified levels according to DENR's latest Air Quality Standards.
12. Developments that generate a significant volume of solid waste shall provide appropriate solid waste collection and disposal systems and facilities.
13. Industrial processes/activities should not cause negative impacts to the environment. The Zoning Administrator/Zoning Officer may request for descriptions of these as part of the requirements for Locational Clearance

**SECTION 23. Agricultural Land Conservation and Preservation Criteria**

Agricultural lands are recognized as valuable resources that provide employment, amenity and bio-diversity. All agricultural lands in the Municipality of Mina shall not be prematurely re-classified. Requests for re-classification shall be evaluated on the merits of conditions prevailing at the time of application, compatibility with the CLUP, and subject to the provisions of Memorandum Circular No. 54 Prescribing the Guidelines Governing Section 20 of RA 7160...Authorizing Cities and Municipalities to Reclassify Agricultural Lands into Non-Agricultural Uses. Applications for agricultural land re-classification approved by the Municipality of Mina shall be submitted to the HLURB/Sangguniang Panlalawigan for review and final approval.

**SECTION 24. Network of Green and Open Spaces**

The Municipality of Mina intends to develop a network of green and open spaces as a way to minimize the occurrence of urban heat islands. Developments shall conform to the following provisions, as applicable:

1. All residential, commercial, industrial and mixed-use subdivisions, in compliance with the rules and regulations of PD 1216, PD 953, PD 957 and BP 220, are respectively required to provide tree-planted strips along their internal roads.

2. Similar developments shall also be required to provide landscaped tree parks that may be made part of the open space requirements mandated by PD 957, BP 220 and related laws. These mandated open spaces shall be classified as non-alienable public lands, and non-buildable.
3. Roof decks of all buildings shall be landscaped, as applicable.
4. Parking lots having at least 20 car parking slots shall be:
  - a. Landscaped with suitable trees. The minimum height of trees at the time of securing an Occupancy Permit shall be 1.80 meters from the base to the crown.
  - b. 50% paved with permeable or semi-permeable materials such as grass, gravel, grass pavers and the like.

**SECTION 25. Site Development Standards**

The Municipality of Mina considers it in the public interest that all projects are designed and developed in a safe, efficient and aesthetically pleasing manner. Site development shall consider the environmental character and limitations of the site and its adjacent properties. All project elements shall be in complete harmony according to good design principles and the subsequent development must be visually pleasing as well as efficiently functioning especially in relation to the adjacent properties and bordering streets. Further, designs should consider the following:

1. The height and bulk of buildings and structures shall be so designed that it does not impair the entry of light and ventilation, cause the loss of privacy and/or create nuisances, hazards or inconveniences to adjacent developments.
2. Abutments to adjacent properties shall not be allowed without the neighbor's prior written consent which shall be required by the Zoning Administrator/Zoning Officer prior to the granting of a Locational Clearance;
3. The capacity of parking areas/lots shall be per the minimum requirements of the National Building Code. These shall be located, developed and landscaped in order to enhance the aesthetic quality of the facility. In no case shall parking areas/lots encroach into street rights-of-way.
4. Developments, such as shopping malls, schools, places of worship, markets, sports stadia and the like, which attract a significant volume of transportation, such as PUVs and, private vehicles shall provide adequate on-site parking for the same. These should also provide vehicular loading and unloading bays so as through street traffic flow will not be impeded.
5. Buffers, silencers, mufflers, enclosures and other noise-absorbing materials shall be provided to all noise and vibration-producing operations. Noise levels shall be maintained according to levels specified in DENR's latest guidelines on the Abatement of Noise and Other Forms of Nuisance.
6. Glare and heat from any operation or activity shall not be radiated, seen or felt from any point beyond the limits of the property.
7. Fencing along roads shall be see-through. Side and rear fencing between adjacent lots (not facing a road) may be of opaque construction materials.

**SECTION 26. Infrastructure Capacities**

All developments shall not cause excessive requirements at public cost for public facilities and services. All developments shall exhibit that their requirements for public infrastructure (such as roads, drainage, water supply and the like) are within the capacities of the system/s serving them. The Zoning Administrator shall require the following:

1. Drainage Impact Assessment Study  
All development proposals in flood prone areas and all major proposals likely to affect the existing drainage regime, including commercial-residential buildings or condominiums, shopping malls, public markets, schools, universities, residential and industrial, and other similar developments shall be required to submit Drainage Impact Assessment Studies. These should be prepared, signed and sealed by duly licensed Civil Engineers, Sanitary Engineers or Environmental Planners.
2. Traffic Impact Statement  
Major, high intensity facilities such as commercial-residential buildings or condominiums having four floors and above, shopping malls, public markets, transportation terminals/ garages, schools, universities, residential and industrial subdivisions, cock fighting arena, sports stadia and other similar developments shall be required to submit Traffic Impact Statements. Other traffic generating developments, as determined by the Zoning Administrator/Zoning Officer, shall be required to submit the same.

**ARTICLE VIII  
MITIGATING DEVICES**

**SECTION 27. Deviation**

Variances and/ or Exceptions from the provisions of this Ordinance may be allowed by the Local Zoning Board of Appeals (LZBA) only when the following terms and conditions exist:

1. Variances (deviation from applicable Building Bulk and Density Regulations, Building Design Regulations and Performance Standards)  
Variance may be allowed provided that proposals satisfy all of the following provisions:
  - a. Conforming to the provisions of the Ordinance will cause undue hardship on the part of the owner of the property due to physical conditions of the property (topography, shape, etc.), which is not self-created.
  - b. The proposed variance is the minimum deviation necessary to permit reasonable use of the property.
  - c. The variance will not alter the intended physical character of the zone and adversely affect the use of the other properties in the same zone such as blocking-off natural light, causing loss of natural ventilation or encroaching in public easements and the like.
  - d. That the variance will not weaken the general purpose of the Ordinance and will not adversely affect the public health, safety or welfare.
  - e. The variance will be in harmony with the spirit of this Ordinance.
2. Exceptions (deviations from Allowable Use provisions)  
Exceptions may be allowed provided that proposals satisfy all of the following conditions:
  - a. The exception will not adversely affect the public health, safety and welfare and is in keeping with the general pattern of development in the community.
  - b. The proposed project shall support economic based activities/ provide livelihood, vital community services and facilities while at the same time posing no adverse effect on the zone/community
  - c. The exception will not adversely affect the appropriate use of adjoining properties in the same zone such as generating excessive vehicular traffic, causing overcrowding of people or generating excessive noise and the like.
  - d. The exception will not alter the essential character and general purpose of the zone where the exception sought is located.

**SECTION 28. Procedures for Evaluating Variances and/or Exceptions**

The procedure for evaluating applications for Variances and/or Exceptions is as follows:

1. The project proponent shall file a written application for Variance and/ or Exception with the LZBA citing the section(s) of this Ordinance under which the same is sought and stating the ground/s thereof.

2. Upon filing of application, a visible project sign, (indicating the name and nature of the proposed project) shall be posted at the project site. This sign shall be maintained until the LZBA has rendered a decision on the application.
3. The LZBA shall conduct preliminary studies on the application. These application papers shall be made accessible to the public.
4. A written affidavit of no objection to the project by the owners of the properties immediately in front of and abutting the project site shall be filed by the applicant with the LZBA within fifteen (15) days upon filing of application.
5. The LZBA shall hold public hearing(s) to be held.
6. At the hearing, any party may appear in person, or be represented by agent/s. All interested parties shall be accorded the opportunity to be heard and present evidences and testimonies.
7. The LZBA shall render a decision within thirty (30) days from the filing of the application, exclusive of the time spent for the preparation of written affidavit of non-objection and the public hearing(s).

All expenses to be incurred in evaluating proposals for Variances and/ or Exceptions shall be shouldered by the project proponent

**ARTICLE IX  
ADMINISTRATION AND ENFORCEMENT**

**SECTION 29. Approved Zoning Maps**

The Approved Municipal Zoning Maps of the Municipality of Mina, printed in standard color codes and with minimum dimensions of 1.20m x 1.20m, shall be posted at the following offices:

- Office of the Mayor

**SECTION 30. Locational Clearance**

All owners/developers shall secure Locational Clearance from the Zoning Administrator/ Zoning Officer or, in cases of Variances and/or Exceptions, from the LZBA prior to conducting any activity or construction on their property/land. This will include property/ land located in Forest Lands, Special Economic Zones and other areas administered by national and special agencies, except for facilities for national security as certified by the Department of National Defense.

**SECTION 31. Projects of National Significance**

Based on established national standards and priorities, the HLURB shall continue to issue locational clearances for projects considered to be of vital and national or regional economic or environmental significance. Unless otherwise declared by the NEDA Board, all projects shall be presumed locally-significant. (Para. 2 Section 3a, of EO 72)

**SECTION 32. Major and/or Innovative Projects**

The Zoning Administrator/Zoning Officer or the LZBA, as the case may be, may seek the assistance of the HLURB or external consultants in the evaluation of proposed Major and/or Innovative Projects such as seaports, airports, oil depots, reclamation areas, shopping malls, special economic zones, tourism enterprise zones, and the like.

**SECTION 33. Subdivision Projects**

All owners and/or developers of subdivision projects shall, in addition to securing a Locational Clearance, be required to secure a Development Permit pursuant to the provisions of PD 957 and its Implementing Rules and Regulations or BP 220 and its Implementing Rules and Regulations and in accordance with the procedures laid down in EO 71, Series of 1993.

Proposed subdivision projects shall prepare their respective Deed Restrictions (to include, among others, regulations pertaining to allowable uses within their project sites. The list of allowable uses within subdivisions shall be within the list of allowable uses within the Zone. Proof of compliance of future projects with the provisions of the Deed Restrictions for the said subdivision shall form part of the requirements for Locational Clearance.

**SECTION 34. Planned Unit Development Projects**

Proposed Planned Unit Developments (PUD) projects shall be accompanied by Comprehensive Development Master Plans (CDMPs) showing, at the minimum, proposed land uses, building density and bulk, road network layout, road and sidewalk section details, and master layouts of all utilities such as those for potable water, storm drainage, sewerage, power supply, telecommunication and solid waste management. CDMPs shall also be provided with Deed Restrictions where, upon approval of the Zoning Administrator/Zoning Officer or LZBA, as the case may be, proof of compliance of future projects on the said PUD site shall form part of the requirements for Locational Clearance.

**SECTION 35. Environmental Compliance Certificate**

No Locational Clearance shall be issued to proposals covered by the EIS System unless the requirements of ECC have been complied with.

**SECTION 36. Building Permit**

No Building Permit shall be issued by the Municipal Building Official without a valid Locational Clearance in accordance with the integrated ZO.

**SECTION 37. Business Permit**

The Business and Licensing Division shall require a Locational Clearance for new developments.

Should there be any change in the activity or expansion of the area subject of the Locational Clearance, the owner/developer shall apply for a new Locational Clearance.

**SECTION 38. Occupancy Permit**

No Occupancy Permit shall be issued by the Local Building Official without certification from the Zoning Administrator/Zoning Officer that the building has complied with the conditions stated in the Locational Clearance.

**SECTION 39. Validity of Locational Clearance**

Upon issuance of an LC, the grantee thereof shall have one year within which to commence or undertake the use, activity or development covered by such clearance on his property. Non-use of LC within said period shall result in its automatic expiration, cancellation and the grantee shall not proceed with his project without applying for a new clearance. Should there be any change in the activity or expansion of the area subject of the Locational Clearance, the owner/developer shall apply for a new Locational Clearance.

**SECTION 40. Notice of Non-Conformance**

Upon approval of this Ordinance, the Zoning Administrator/Zoning Officer shall immediately issue Notices of Non-Conformance to existing non-conforming uses, buildings or structures. The said Notice of Non-Conformance shall cite provisions of this Ordinance to which the existing use, building or structure does not conform to. The same Notice shall also inform the owner of said non-conforming use, building or structure of the conditions for the continued use of the same as provided in the following section.

It may also provide conditions by which the non-conforming use can reduce its non-conformity.

**SECTION 41. Existing Non-Conforming Uses, Buildings and Structures**

The lawful uses of any building, structure or land at the time of adoption or amendment of this Ordinance may be continued, although such uses do not conform with the provisions of the integrated ZO, provided:

1. That no such non-conforming use shall be expanded or extended to occupy a greater area of land than that already occupied by such use

at the time of the adoption of this Ordinance or moved in whole or in part, to any other portion of the lot or parcel of land where such non-conforming use exists at the time of the adoption of this Ordinance;

- That no such non-conforming use which has ceased operation for more than one (1) year be again revived as non-conforming use;
- A vacant/idle building or structure may not be used for non-conforming activity;
- That any non-conforming building/structure which has been damaged maybe reconstructed and used as before provided that such reconstruction is not more than fifty percent (50%) of the replacement cost.
- That should such non-conforming portion of any building/structure be destroyed by any means to an extent of more than fifty percent (50%) of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this Ordinance;
- That no such non-conforming use maybe moved to displace any conforming use;
- That no such non-conforming use and/or structure may be expanded or altered in a way which increases its non-conformity, but any structure or portion thereof may be altered to decrease its non-conformity;
- That should such use and/or structure be moved for any reason to whatever distance, it shall thereafter conform to the regulation of the zone in which it is moved or relocated;
- That such non-conforming use and/or structure should not cause nuisance effects to its neighborhood, such as but not limited to pollution of whatever form (air, noise, land, water, etc.), undesirable traffic (whether vehicular or pedestrian) and the like and should further not pose health and safety hazards and as further provided in the Performance Standards provision of this Ordinance; and
- The owner of a non-conforming use and/or structure shall program the phase-out and relocation within ten (10) years from the effectivity of this Ordinance.

**SECTION 42. Responsibility for Administration and Enforcement**  
This Ordinance shall be enforced and administered by the Local Chief Executive through the Zoning Administrator/Zoning Officer who shall be appointed by the former in accordance with existing rules and regulations on the subject.
